THE JOURNAL OF ANIMAL BEHAVIOR

VOLUME 1, 1911

EDITORIAL BOARD

Madison Bentley
Cornell University

Harvey A. Carr
The University of Chicago

Samuel J. Holmes
The University of Wisconsin

Herbert S. Jennings
The Johns Hopkins University

Edward L. Thorndike
Teachers College, Columbia University

Margaret F. Washburn
Vassar College, Editor of Reviews

John B. Watson
The Johns Hopkins University

William M. Wheeler
Harvard University

Robert M. Yerkes, Harvard University
Managing Editor

Published Bi-monthly
at Cambridge, Boston, Mass.
HENRY HOLT AND COMPANY
34 West 33d Street, New York
G. E. STECHERT & CO., London, Paris and Leipzig, Foreign Agents

Entered as second-class matter March 7, 1911 at the post-office at Cambridge Boston,, Massachusetts. under the act of March 3, 1870

CONTENTS OF VOLUME 1, 1911

Number 1, January-February

	PAGES
D. B. Casteel. The discriminative ability of the painted turtle	1– 28
S. J. Holmes. The reactions of mosquitoes to light in different periods of their life history	29– 32
Hamilton, G. V. A study of trial and error reactions in mammals	33– 66
Lucy M. Day, and Madison Bentley. A note on learning in Paramecium	67– 73
Robert M. Yerkes. Wheeler on animals (a review)	74– 77

Number 2, March-April

A. S. Pearse. The influence of different color environments on the behavior of certain arthropods	79–110
Lawrence W. Cole. The relation of strength of stimulus to rate of learning in the chick	111–124
Emory S. Bogardus, and Frederick G. Henke. Experiments on tactual sensations in the white rat	125–137
Vinnie C. Hicks. The relative values of the different curves of learning	138–156
Announcement of a department of notes	157

Number 3, May-June

F. H. Herrick. Nests and nest-building in birds. Part 1.	159–192
E. A. Andrews. Observations on termites in Jamaica.	193–228

Number 4, July-August

S. O. Mast. Habits and reactions of the ciliate, Lacrymaria	229–243
F. H. Herrick. Nests and nest-building in birds. Part 2.	244–277
W. S. Hunter. Some labyrinth habits of the domestic pigeon	278–304

PAGES

B. F. Cummings. Some features of behavior in the courtship display of the palmate newt (Molge palmata Schneid) 305–306
R. M. Yerkes. Brehm's Tierleben 307–308

NUMBER 5, SEPTEMBER-OCTOBER

A. A. Schaeffer. Habit formation in frogs 309–335
F. H. Herrick. Nests and nest-building in birds. Part 3. 336–373
C. H. Turner. Notes on the behavior of a parasitic bee of the family Stelidae 374–392

NUMBER 6, NOVEMBER-DECEMBER

S. J. Holmes. Literature for 1910 on the behavior of lower invertebrates 393–400
C. H. Turner. Literature for 1910 on the behavior of spiders and insects other than ants 401–412
William Morton Wheeler. Literature for 1910 on the behavior of ants, their guests and parasites 413–429
John B. Watson. Literature for 1910 on the behavior of vertebrates 430–447
Georges Bohn. Literature on animal psychology published in France during the year 1910 448–455
Margaret F. Washburn. A discussion on instinct 456–460
G. H. Parker. Mast's "Light and the Behavior of Organisms" 461–463
Bibliography for 1910 465–470

Subject and Author Index

VOLUME 1

Andrews, E. A. Observations on termites in Jamaica, 193;
conjugation in the crayfish, 393, 465.
Ants, 74;
literature for 1910, on, 413.
Arthropods, influence of color on, 79.

Banta, A. M. Reactions of Isopod, 393, 465.
Barnes, W. Life history of Anisota, 408, 467.
Bauer, V. Color vision in fishes, 430, 469.
Bee, behavior of, in family Stelidae, 374.
Behavior, influence of color on, in arthropods, 79;
in courtship display, of palmate newt, 305;
of bee, 374;
and light, 461.
Bentley, M. and Day, L. M. Learning in paramecium, 67.
Bernoulli, A. L. Hearing in fishes, 436, 469.
Bibliography, for 1910, 465.
Birds, nests and nest-building, Part 1, 159; Part 2, 244; Part 3, 336.
Bloomfield, D. and Yerkes, R. M. Reactions of kittens to mice, 439, 470.
Bogardus, E. S. and Henke, F. G. Experiments on sensations in the white rat, 125.
Bohn, G. Literature on animal psychology, published in France, in 1910, 448;
the sensibility of lower animals, 448, 466.
Brehm's Tierleben, review of, 307.
Brun, R. The biology of ants, 413, 468.
Bueno, J. R. Life histories of water-bugs, 411, 467.
Burrill, A. C. Direction of column of ants, 413, 468.

Carpenter, F. W. Reactions of coral, 394, 466.
Carr, H. W. Instinct and intelligence, 457, 465.
Casteel, D. B. The discriminative ability of the painted turtle, 1.
Cat, reactions of, 33.
Chick, learning in the, 111.
Ciliate, habits and reactions of, 229.
Cole, L. W. Reactions of frogs to chemicals, 439, 469;
relation of strength of stimulus to learning in chick, 111.
Color, influence of, on behavior of arthropods, 79.
Cornetz, V. The trails of ants, 414, 468.
Cowles, R. P. Movement of the star fish, 394, 466;
behavior of Ophiuroids, 394, 466.
Crawley, C. Greetings of ants, 416, 468.
Criddle, N. Habits of tiger beetles, 412, 467.
Cummings, B. F. Features of behavior in courtship display, of palmate newt, 305.

Dakin, W. J. Reactions of pecten, 394, 466.
Day, L. M. and Bentley, M. Learning in paramecium, 67.
Doflein, F. Reactions of decapods, 395, 466.
Dog, reactions of, 33.
Donisthorpe, H. S. J. K. Nests of ants, 417, 468;
learning in ants, 417, 468.
Drzewina, A. The biology of crabs, 450, 466.

Emery, C. Reproduction in ants, 418, 468.
Ewald, W. E. Behavior of Cladocera, 395, 466.

Faurot, L. Behavior of crabs, 451, 466.
Ferton, C. Instincts of Hymenoptera, 453, 467.
France, animal psychology in, 448.
Franken, A. Psychology of a dog, 440, 469.
Franz, V. Migration of fishes, 442, 469;
phototaxis, 395, 466.
Frogs, habit formation in, 309.

Graenicher, S. Bee-flies in relation to flowers, 406, 467.
Glaser, O. C. Habit formation in rat, 447, 469.
Greene, C. W. Migration of salmon, 442, 469.

Habit, in turtle, 1;
in mammals, 33;
in paramecium, 67;
formation in frogs, 309.
Habits, of the domestic pigeon, 278.
of the Lacrymaria, 229.
Hachet-Souplet, P. Animal psychology, 396, 465;
flights in pigeons, 443, 470.
Hamilton, G. V. Trial and error reactions in mammals, 33.
Hargitt, C. W. Habit of Hydroides, 396, 466.
Henke, F. G. and Bogardus, E. S. Experiments on sensations in white rat, 125.
Herbst, C. Reactions of crustaceans, 396, 466.
Herrick, F. H. Nests and nest-building in birds, Part 1, 159; Part 2, 244; Part 3, 336;
behavior of the cuckoo, 441, 470;
intelligence in birds, 442, 470.
Hess, C. Reactions to light, 396, 466;
color vision in fishes, 431, 470;
vision in turtles, 432, 470.
Hicks, V. C. Relative values of different curves of learning, 138.
Holmes, S. J. The reactions of mosquitoes to light, 29;
reactions of Branchipus to light, 396, 466;
literature for 1910 on behavior of lower invertebrates, 393.
Holmes, S. J. and Homuth, E. S. Smell in the crayfish, 397, 466.
Horse, reactions of, 33.
Hunter, W. S. Labyrinth habits of domestic pigeon, 278.
Hurwitz, S. H. Reactions of earthworms, 397, 466.

Insects, literature for 1910, on, 401.
Instinct, discussion of, 456.
Invertebrates, literature for 1910, on, 393.

Jackson, H. H. T. Control of phototaxis, 397, 466.
Jacobson, E. Habits of ants, 419, 468.
Jennings, H. S. The study of behavior, 397, 465.

Kneissl, L. Behavior of the mite, 419, 468.
Kribs, H. G. Reactions of Æolosoma, 398, 466.
Krueger, E. Biology of a beetle, 420, 468.

Labyrinth method, and curves of learning, 138.
Lacrymaria, habits and reactions of, 229.
Lea, A. M. Coleoptera in ant nests, 420, 468.
Learning, in turtle, 1;
in mammals, 33;
in paramecium, 67;
in the chick, 111;
relative values of, in different curves of, 138.
Light, and the behavior of organisms, 461.
Literature for 1910, bibliography of, 465.
Loeb, J. and Maxwell, S. S. Heliotropism in animals and plants, 398, 466.
Lovell, J. H. Color sense of the bee, 404, 467.

Mammals, trial and error reactions of, 33.
Marsh, H. O. Notes on ants, 420, 468.
Mast, S. O. Habits and reactions of the Lacrymaria, 229
reactions of amoeba to light, 398, 466;
response of fly larvae to gravity, 401. 467.
light and behavior of organisms, 461.
Matisse, G. Behavior of marine invertebrates, 449, 467.
Maxwell, S. S. Heliotropism in animals and plants, 398, 466.
McClendon, J. F. Habits of some marine animals, 398, 466.
McDermott, F. A. Light emission of Lampyridae, 411, 467.
McDougall, W. Instinct and intelligence, 459, 465.
McIndoo, N. E. Biology of cave spiders, 402, 467.
Mitzmain, M. B. Behavior of fleas, 401, 467.
Monkey, reactions of, 33.
Montgomery, T. H. Behavior of spiders, 406, 467.
Moore, A. R. Righting movements of the star fish, 398, 467.

Morgan, T. H. and Shull, A. F. The life cycle of an aphid, 410, 467.
Morgan, C. L. Instinct and intelligence, 457, 465.
Morse, M. Rhythm in phototaxis, 399, 467.
Mosquitoes, reaction of, to light, 29.
Myers, C. S. Instinct and intelligence, 456, 465.

Neger, F. W. Behavior of harvesting ants, 421, 468.
Nest-building behavior, literature on, 407.
Nests and nest-building, in birds, Part 1, 159; Part 2, 244; Part 3, 336.
Newt, behavior of, 305.

O'Brien, R. A. Habits of tree-ant, 421, 468.
Observations, on termites, in Jamaica, 193.

Paramecium, learning in, 67.
Parker, G. H. Reactions of sponges, 399, 467;
smell in fishes, 438, 470;
Mast's "Light and Behavior of Organisms," 461.
Pearse, A. S. Influence of color on arthropods, 79.
reactions of amphibians to light, 434, 470.
Petrunkevitch, A. Behavior of spiders, 405, 467.
Pierce, W. D. Nest-building habits of ant, 422, 469.
Piéron, H. The slave-making instincts of ants, 422, 469.
Pigeon, habits of, 278.
Polimanti, O. Memory in cephalopods, 399, 467.
Porter, J. P. Imitation in birds, 446, 470.
Prowazek, S. von. Reactions of protozoa, 400, 467.

Rat, white, experiments on sensations of, 125.
Rau, P. Behavior of Cecropia, 407, 467.
Reactions, visual, in turtle, 1;
in mosquitoes, 29;
trial and error in mammals, 33;
in paramecium, 67;
of the Lacrymaria, 229;
of organisms to light, 461.
Rose, M. Tropisms, 400, 467.
Roubaud, E. The instincts of wasps, 453, 467.

Sanders, G. E. Habits of Disognus, 412, 468.
Santschi, F. Polyandry in ants, 422, 469.
Schaeffer, A. A. Habit formation in frogs, 309;
selection of food in stentor, 400, 467.
Schimmer, F. Instinct of toleration in ants, 423, 469.
Schmitz, H. Relations of beetles to hosts, 423, 469.
Sensations, experiments on, in white rat, 125.
Shepherd, W. T. Mental life of the monkey, 435, 470.
Shull, A. F. The life cycle of an aphid, 410, 467.
Simroth, H. Locomotion of gasteropods, 400, 467.
Spiders, literature for 1910, on, 401.
Stimulus, relation of, to learning, in the chick, 111.
Stout, G. F. Instinct and intelligence, 458, 465.
Swift, W. B. Reactions of dog to sound, 437, 470.

Termites, observations on, in Jamaica, 193.
Thauziés, A. Distance orientation, 443, 470;
behavior of homing pigeons, 444, 470.
Trial and error reactions, 33.
Tropisms, literature on, 401.
Turner, C. H. Behavior of bee of family Stelidae, 374;
literature for 1910 on behavior of spiders and insects other than ants, 401;
color vision of the bee, 403, 468.
Turtle, discriminative ability of, 1.

Values, relative, in learning, 138.
Vertebrates, literature on, for 1910, 430.
Vickery, R. A. Relations of ant to the root aphid, 424, 469.
Viehmeyer, H. Lycaenids and ants, 425, 469.
Vision, of turtle, 1;
literature on, 403.

Washburn, M. F. A discussion on instinct, 456.
Wasmann, E. Symphilic instincts, 426, 469;
social parasitism in ants, 428, 469.
Watson, J. B. Literature for 1910 on behavior of vertebrates, 430;
homing sense of terns, 444, 470.

Waugh, K. T. Vision in the mouse, 435, 470.
Webster, F. M. Effects of mite, 410, 468.
Wellman, C. Parasitic habits of an Ephydrid, 428, 469.
Wheeler, W. M. Ants, 74;
literature for 1910 on behavior of ants, their guests and parasites, 413.
Witmer, L. Behavior of monkey, 445, 470.
Woodworth, C. W. Control of Argentine rat, 429, 469.

Yerkes, R. M. Wheeler on ants, 74;
Brehm's Tierleben, 307.
Yerkes, R. M. and Bloomfield, D. Reactions of kittens to mice, 439, 470.

Zeliony, G. S. Hearing in kitten, 437, 470.
